Chapter #28

Progressivism and the Republican Roosevelt

FOLLOW THE LEADER

Chapter Synopsis: Nearly 76 million Americans greeted the new century in 1900. Of them, almost one in seven was foreign-born. In the fourteen years of peace that remained before the Great War of 1914 engulfed the globe, 13 million more migrants would carry their bundles down the gangplanks to the land of promise. Hardly had the twentieth century dawned on the ethnically and racially mixed American people than they were convulsed by a reform movement, the like of which the nation had not seen since the 1840s. The new crusaders, who called themselves "progressives," waged war on many evils, notably monopoly, corruption, inefficiency, and social injustice. The progressive army was large, diverse, and widely deployed, but it had a single battle cry: "Strengthen the State." The "real heart of the movement," explained one of the progressive reformers, was "to use government as an agency of human welfare."
